Niehoff Awards Preferred Supplier Certificate to Uhing

As the first supplier to machine manufacturer Niehoff, Joachim Uhing KG, leading manufacturer of rolling ring drives worldwide, was awarded the “Preferred Supplier” certificate in late January 2008. This award marks the apex of a successful business connection that for many years has been characterised by compliance with the most diversified quality criteria and a high degree of cooperation reliability.

Wolfgang Weber, commercial director of Uhing KG, received the award from the hands of Martin Hannosy. “This award is to honour enterprises meeting our high demands on diversified criteria such as product quality, service and delivery reliability”, says Hannosy who as Procurement Manager represents Maschinenfabrik Niehoff. „It also expresses our warm thanks for particularly productive cooperation to the enterprise that has been awarded this certificate.“

The constant proof that both enterprises have the same philosophy with regard to the award’s underlying values was decisive for awarding Uhing KG. The long-lasting business connection between both enterprises is characterised by an extremely reliable cooperation in which Uhing could always convince with outstanding performance. “Uhing proved to be a competent partner you can rely on in every respect”, adds Hannosy.

“The certificate Niehoff awarded us is a wonderful acknowledgement of services rendered,” rejoices Wolfgang Weber, the managing head for Marketing and Sales of the Mielkendorf-based long-established enterprise. “We also consider it an incentive for continued dedicated commitment. It goes without saying that we will not rest on our laurels.”

Ever since its foundation more than 60 years ago, Uhing above all exhibits a strongly developed quality-awareness. The quality badge “made in Germany” applies to all process and products. True to the motto “often copied but never reached“, Uhing continues developing innovative, unrivalled products. Of major importance in this context is the global availability, ensured by a worldwide sales network. Uhing customers in more than 45 countries thus have access to trained local agencies.
